

Introduction:

Education is a life-long process. From times immemorial there has been progress and development in all fields of education. Now in the present age of globalization, education has more roles to play for the welfare of the common people. In respect of our country, at national level various commissions, committees, bills and acts have come with a good deal of recommendations for bringing a desired change in educational setup of the country. Since the socio-economic sphere of the country is changing drastically, there is a dire need to investigate many areas of education at the national level which have social and economic relevance.

Govt. College of Education Srinagar is a premier & lead Teacher Training Institute of the valley catering the needs of Jammu, Kashmir & Ladakh Davisson. The college comprises of Academic Block, Library Block and the Science Block reconstructed and upgraded under Prime Ministers Development Package (PMDP) programme with School of Education under RUSA scheme. At the same time the college has got upgraded to the level of Institute of Advanced Studies in Education (IASE) in Year 2016 and started to offer new programmes viz. M.A. Education, Integrated B. Ed M. Ed, B. A. honors in Education & certificate courses in various skill development programmes. Moreover, the college intends to offer B.A. B. Ed/B. Sc, B. Ed in near future.

The research center of EDUCATION AND TEACHER EDUCATION have set thrust areas of the social and economic relevance in consultation with the mentor institution experts. All the thrust areas will have well defined objectives and expected outcomes along with its significance of investigation.
